

Leading Edge's *Camp Imagine* at Trevista at Horace Mann School Bryant Webster Elementary School

Get Ready for a Summer of Smiles

Squash boredom this summer in a social and safe environment where your child's development will take flight.

Our *Camp Imagine* offers:

- **Engaging activities:** Our lab based programming means your children will have unique and fun activities daily with other children in their school district.
- **Safe, high quality programs:** Our programs are staffed with experienced teachers and meet or exceed current CDC guidelines.
- **Flexible Scheduling:** Enroll for one week, several or all!

Dates and Pricing

Leading Edge's *Camp Imagine* will run **Monday through Friday** from **8:00am–4:00pm** at a weekly rate of **\$229.95**. Available weeks include:

- 6/6 – 6/10
- 6/13 – 6/17

Camp Imagine Activities

Each week we will have a different theme to capture our campers' imaginations. Here's a sampling of the fun that's in store for your children.

Volcanoes

3..2..1...Eruption! Our young scientists will learn about the various active and inactive volcanoes around the world, create lava, and have the opportunity to construct their very own volcano models! We cannot wait to see their excitement when the volcano finally erupts.

Seed to Plant

Let's get gardening! Campers will learn about the different phases a seed goes through before it turns into a plant, what nourishment and resources it needs to grow successfully, and the variety of plants that exist in the world—but that's not all! Campers will get to be a part of this process, as they will plant their own seeds, take care of their own individual plants by providing water and sunlight, and watch their plants grow.

Adventures in Space - *back by popular demand*

Space – it truly is the final frontier. Campers will explore the universe and learn what makes our solar system unique! Campers will learn about space exploration, build their own model satellites, study cosmic distance, create their own alien language, and much more.

We'll make the most of the summer by helping children gain academic ground lost during the pandemic while also making memories.

Additional Program Information

Minimum enrollment must be met by Friday, May 27th. Registration will be accepted after this date, provided minimum enrollment has been met.

Payments for services are due in advance. Any schedule changes must be completed by noon, the Thursday before each week of program begins.
